

## Ol' 100

A new fad has hit Cameron. It is riding motorcycles. We termed it a fad after a conversation with one of the young fellows who rides the two-wheeled hot rods.

"It'll probably last through spring and summer," said he. "Then some of the bike riders lose interest in the sport. They'll sell their bikes or let the finance company have 'em."

100-100-100

In the meantime, many Cameron teenagers have lost interest in driving the family car in favor of a new motorcycle.

Among the younger set, we see more motor scooters. They are probably in training for the more expensive, more fascinating, faster "bikes."

Things surely change fast. It used to be a big thing to graduate from roller skates to bicycles, the kind you pump so hard when you go up a hill.

100-100-100

Now days, the kids have a real dilemma. Since bicycles are old hat, they choose only from the wheeled power vehicles. First it's cars, stock cars, family cars, hot rods. Now they are degressing to motorcycles, not just in Cameron, but everywhere.

It's apparent we'll be doing away with wheels altogether in a few years and the teenagers of tomorrow will bustle around in strapped-down helicopters and rocket-powered space outfits with nary a concern about touching the ground. Of course the more modern hotrodder is not too concerned about wheels on the ground except at the "burn-off" stage.

100-100-100

Nevertheless, motorcycleitis is with us for the summer months.

I know I can't lick 'em so I may join 'em. If our information is correct, we'll be able to pick up the payments on a "bike" when summer ebbs.

### Demerson Suffers

### Leg Gunshot Wound In Shooting Here

A Cameron Negro suffered a gunshot wound in the leg Monday night and charges of aggravated assault have been filed against Sebero Correa, about 65, of 509 S. Austin.

Police Chief Chester Simons said that Correa fired one shot from a .30-cal. German Lager at Sullivan Demerson, about 65, of 806 N. Austin.

Simons told The Herald that Demerson suffered a broken leg from the shot.

The Cameron police chief quoted Correa as saying he had warned people a number of times about crossing across his property at 509 S. Austin. No witness saw the shooting.

Demerson told police he was crossing the property when Correa's dog rushed out barking at him and Correa fired the shot into Demerson's leg.

Simons said that three rounds remained in the chamber of the weapon.

Correa was out on bond awaiting court hearing.

## Pushbutton Phone Next, Says Fuquay

Dial service, coming to Cameron in October will be succeeded in a few years by push-button telephoning.

So said Milton Fuquay, wire chief of Southwestern Bell Telephone in Taylor, and former wire chief in Cameron.

In an address before Cameron Rotarians Wednesday, Fuquay ex-

plained futuristic developments in telephone service now in the testing states in Bell laboratories.

Fuquay was introduced by Rotary President John Andres.

Beside the push-button dialing system to come, Fuquay dramatically illustrated a solar battery that powers electronic equipment by transferring light rays in to electrical energy.

He hooked a portable radio to the solar battery, turned on an ordinary reading light shining down on the battery and the radio began to play.

Fuquay also showed Rotarians a push-button phone system that can handle 30 calls and discussed television-telephone service to be available for public use.

"You will be able to hold up objects in front of the camera at your end of the line so that the person talking to you can see it," he noted.

"And new phones now being developed," said Fuquay, "will make it possible for the housewife to push a button when the phone rings, then continue talking and working in the kitchen without using a receiver."

His explanation of the future in communications included other uses of television receivers-viewers hooked with telephone services in homes and businesses.

### Elementary Schools Set Play Day Friday

## Clock Chimes Time In Tones At Local Bank

Cameron once again has a chiming clock.

The First National Bank has erected a Westminster Chime Clock at the corner of First & Houston in downtown Cameron.

Not since the old courthouse clock used to toll the hour years ago has Cameron had a chiming clock.

The two-face clock rings out each quarter hour from 7 a. m. to 10 p. m. each day.

Its brass pipe chimes are struck by an electrically controlled hammer in cadence with a master clock within the building.

Here's how the chimes tell what time it is:

Four tones mean 15 minutes after the hour.

Eight tones at the half hour.

Twelve tones at 15 minutes before the hour.

Sixteen tones on the hour. The 16 tones on the hour ring out before the clock strikes the number of tons for the correct hour of the day.

The 6-foot, 6-inch clock contains four brass pipes and is covered with a casing of chemically treated bronze. It was erected by the Minneapolis, Minn. manufacturing firm two weeks ago.

You can hear the chimes about two blocks away, officials said.

## Construction News

### Work Continues

Construction work continued on US 77 through Cameron as cloudy skies lifted for the first time in several weeks.

And work continued on tearing down the old First Methodist Church parsonage on Travis Street.

Workmen were completing curbing along the nine-block route on US 77. And other workmen were hauling in base material to fill gaps caused by rains and moving traffic.

When curbing is complete, officials said, paving on the roadway would be completed in a relatively short time.

Rains and inclement weather have delayed construction along the route. Construction started in January.

Meanwhile, city workmen were grading North Jackson and beginning general filling in of worn places in city streets.

Construction was continuing on new dial central building in downtown Cameron as company officials with Southwestern Bell Telephone set a target date for completion at about July 1.

And the Cameron Armory was about to be checked for final clearance before being turned over to the local guard unit.

## Yoe Ranks First In District League

Cameron walked away with district honors in the interscholastic league events with a total score of 297½. Nearest competitor was Rosebud with 219½ points.

Belton scored 128 total points. Hearne 104 and Rogers 59.

Break down in the scoring according to Wiley Loughmiller, superintendent of the Cameron schools is: Cameron, Athletic 121½, Literary 176; Rosebud, Athletic 102½, Literary 117; Belton, Athletic 73, Literary 55; Hearne, athletic 37, Literary 67; Rogers, athletic 25, literary 34.

Winning teams and individuals will compete for regional honors at Blinn College, Brenham this week. Golf and tennis started Wednesday, literary events will be Friday with one act plays and track Saturday.

Competing in Fridays events from Cameron will be: James Fontaine and Mark Perrin, boys debate; Turner Newton, boys extemporaneous speaking; Sally Al-faro and Dorene Chollett, spelling and plain writing; Joyce Hannon, senior girls declamation; Teena White, junior girls declamation; and Carole Boyls, shorthand.

Presenting Cameron's award winning one act play Saturday will be Joyce Hannon, Margaret Young, Allen Dodson and Billy Hensley. Alternates are Geri Kol-odejak and Grady Gill.

Track participants from Cameron Saturday will be: Edward Lierman, 100 yard dash; Rodney Folschinsky, 440 yard dash; Douglas

### NMUF Board Names Nine New Members

The board of directors of the North Milam United Fund has elected nine new members.

President E. O. Schiller, Jr., listed seven new members from Cameron and two counties on the 27 member panel.

Schiller said that the board voted to amend the Fund constitution, requiring retiring members to be off the board one year prior to consideration for re-election.

New members are: Mrs. Buster Griffin, Rt. 2, Buckholts; the Rev. Gerald R. Cobb, Ben Arnold; Don G. Humble, Hinton Pruett, Bill Crockett, Mrs. James Kahler, Mrs. David Shapiro, Henry Schattler, Jr. and Richard Williams.

Schiller noted that the board will meet again May 12 to elect new officers for the 1959 Fund year. He said also that the current national Red Cross drive will not be conducted in the North Milam area since the Red Cross draws a proportionate share of the Fund collection each year.

### 4-H Clubs To Crown Royalty

Milam County 4-H Clubs will crown their King and Queen and 4-H girls will model fashions that they have made at 7:30 p. m. Saturday in the Methodist Recreation Hall.

Highlight of the annual 4-H evening will be the dress revue and announcement of winners. Mrs. Lucy Durham, Home Demonstration Agent from Bell County will judge the garments.

### Poultry Show May 2

## City Mall Gets Final Touch

The Cameron Chamber trade development committee will meet today for final planning on the combination Mall-Double Dollar-Day Poultry Show set for Cameron May 1-2.

The traditional Cameron Poultry Show with 100 entries will climax the two-day event sponsored by the Cameron Chamber, according to Manager Richard Moseley.

Hilliard Thomas, chairman of the trade development committee, said that entries from all types of businesses will be accepted on a first come, first serve basis for Mall display space.

**Big Mall Turnout**  
In Cameron's first Mall in farm

equipment and feed dealers attracted up to 5,000 people in that two-day event.

The Poultry Show will be held Saturday, May 2, in a large tent on the north side of the courthouse square, Moseley said. County-wide entries sponsored by Cameron Chamber members will compete for ribbons, trophies and cash prizes in two divisions - pullets and cockerels.

But Mall displays of all types and the city-wide Double Dollar Days will run both Friday and Saturday, May 1-2, Moseley noted.

Climaxing Poultry Show activities will be an awards banquet-barbecue 7:30 p. m. Saturday night for growers and sponsors at the

First Methodist Church's new Recreation Center. Alcoa's Jim Knight, public relations chief, will be the featured speaker.

**Repeat Performance**

The Mall display and Double Dollar Day events will be run similarly to the first Cameron Mall promotion held in conjunction with the annual Cameron Junior Livestock Show.

Moseley predicted a greater turnout for the Mall show than in February. New car and farm implement dealers packed the courthouse square with autos and equipment in February.

Judging for the Poultry Show will be conducted by E. A. Parnell Texas A&M poultry expert.

### City Fathers Discuss Street Maintenance

The City Council Tuesday night considered installation of a special dial fire answering system, tabled a \$11,000 bid for 10th Street construction and discussed Cameron's street maintenance problems.

In a four-hour session, newly re-elected councilmen Richard Moseley, Hayden Lawrence and Lincoln Mondrik took the oath of office for second two-year terms. They were re-elected in a city vote April 7.

Councilmen and a contingent of Cameron volunteer firemen heard C. L. Carson, manager of Cameron Southwest Bell Telephone, outline special equipment available for fire answering service in the new dial system. Carson said dial service was scheduled to begin October 4.

**Recording Device**  
Outlined were a recording-answering device, special trunklines and equipment at the dial central. Estimated installation cost of the equipment would be \$186 and monthly operating cost would be \$38.39 per month, Carson noted.

Mayor Bassel Wilson noted a monthly cost of phone service to the fire department now at \$15.

Carson said the new equipment identical to some being used in Taylor, Belton and Lampasas, would automatically give calling volunteer firemen location of the fire after the fireman on duty reads the address into the recorder.

Wilson appointed Mondrik and Moseley as a committee to check the device being used in nearby cities.

Fire Chief Carl Black and a number of volunteer firemen were on hand to discuss the equipment. The department will consider the equipment along with other answering systems using short-wave radio.

In other action, the council tabled a \$11,000 bid for construction of paving, curbing and gutter on E. 10th St. for consideration at a special meeting. B. C. Construction Co., Rogers, submitted the only bid.

Officials said previous estimates for the construction of the project ran about \$8,000.

Public Works Supt. John Earle told the council that repair and maintenance of streets had been delayed by rains and inclement weather.

Wilson noted a number of complaints concerning chuck holes in paving around the city.

Earle also noted the beginning of construction work on North Jackson where grading began earlier this week.

Earle said that repair and maintenance work on damaged streets was continuing. He noted that repairs were not practical during recent rains when paving fills would not hold in wet damage areas of city streets.

Councilmen also voted transfer of \$2500 to the street department budget and \$1025 to the police department for operating revenues for the remainder of the fiscal year. The new fiscal year begins October 1.

### WEATHER NOTES

The Weatherman assures us it's going to quit raining sometime. His prediction calls for clear, sunny skies through the week end with light showers possible by Sunday night. Precipitation in the past seven days totaled .65 of an inch.

## Driller Abandons

### Gus Schramm Well

The Dan Harrison, Jr. No. 1 Gus Schramm, Milam County deep wellcat located about 8½ miles northwest of Rockdale, was abandoned last week when reportedly encountering a granite formation which prevented further drilling on the test.

Depth was about 5,240 feet on the dry hole.

The Schramm was reported as having difficulty with hard formations earlier during the drilling.

The wellcat was located on a 5,000 acre lease block Harrison had assembled in the Juan Jose Acosta Survey in western Milam County.

## MILAM COUNTY'S Farm Scene

Small grain sorghum plants in the Coastal Bend areas of the state are being attacked by true chinch bugs. Extension Entomologists say that these insects also feed on corn, small grains and grass and that the early infestations are coming from adults which overwintered near field margins. They advise farmers to check their fields for possible build ups of these insects.

Adequate forage and feed are keys to success in livestock farming.

### Reportable Diseases

Reportable diseases in Milam County last week were: 36 strept throat, 8 flu, and 4 chickenpox, according to Dr. T. E. Crump, acting director of the Milam County Health Department.

### Stevens Promoted

## County Agent Reports

# Patterson Speaks On Animal Health

By J. D. Moore  
County Agent

A large crowd of interested stockmen and their wives attended the animal health meeting to hear Dr. C. M. Patterson, Extension Veterinarian, discuss animal health and its relation to all phases of society. Dr. Patterson pointed out that increased restrictions will be placed on our livestock because of the remarkable progress in animal health.

It was also pointed out that 80 per cent of the cattle raised in Texas are shipped to other states as stocker or feeder cattle. As these states make progress in disease control and eradication, they will set up restrictions to safeguard the health programs they have in effect.

Concerning present State legislation, Dr. Patterson pointed out that little progress is likely to be made in the direction of laws to govern animal health in Texas due mostly to the failure of livestock men to let their Senators and Representatives know they would support such measures.

Among the proposed legislation was a bill that would allow a county to work as a unit. A petition from a majority of the stockmen would be the initial step to set up a workable plan to eradicate live-

stock diseases through a testing and vaccination program.

### Bright Spots

Some progress is being made with legislation to safe guard animal health. The legislature has just passed a bill prohibiting the sale of live hog cholera virus in Texas. A safe vaccine has been developed that is effective in preventing hog cholera without spreading the live germs through medicinal practices.

A bill requiring the cooking of garbage fed to hogs is in effect. Also a law on maintaining our status on clean T.B. programs is in effect.

Throughout Dr. Patterson's talk, he emphasized the thought that we face a rather severe challenge in a clean up program for Texas Livestock since there are more livestock produced in Texas than any other state in the U.S.

Refreshments of homemade pies and coffee were served by the ladies of the Cameron Home Demonstration Club.

## Rural Life Sunday Is Set For May 3

May 3 is Rural Life Sunday. It is the day set aside by rural churches—the fifth Sunday after Easter—to emphasize the spiritual values of rural living.

Secretary of Agriculture Benson has said that Rural Life Sunday provides an opportunity to develop better understanding and working relationships among community institutions—churches, schools, farm organizations, cooperatives, soil conservation districts, agricultural agencies, civic and service clubs and other community groups—for the purpose of enriching rural life.

"Too," added the Secretary, "Rural Life Sunday also offers rural and urban ministers one of the best opportunities for exemplifying the true meaning of Christian Stewardship. It emphasizes the great spiritual values to be found and conserved in the community, the true religious significance of resource conservation, the place of the church in an educational program that will bring to everyone an understanding and appreciation for the farmer and the soil. It points out the place of man in God's world and a host of other interests of a kindred nature.

For many years Texas 4-H club members have participated active-

## From Extension Agronomist

# Findings On NK-27 Grass

The following information was received by J. D. Moore, county agent, from the Extension agronomist in 1958 at the request of local farmers:

In your letter of September 24, you stated you had farmers requesting information on a Coastal Bermuda type grass that produces seed. You mentioned the Greenfield variety appearing in the ARS Report with the comment that it produces seed. This is a strain of Common Bermuda.

"In all probability the grass to which your farmers are referring is one that is being advertised under the name NK-27. This is a selection of Common Bermuda-

grass reportedly found on an island in a river in Arizona. It appears to have unusually vigorous growth for Common Bermuda, and it does produce seed. It is advertised as having the advantages of Coastal in addition to producing seed.

"When the publicity began to come thick and fast on this grass and we noted that the publicity stated it had been tested at the Experiment Stations across the South. The only station we could find that had grown it through the 1957 growing season was the Alabama Station. They stated that when the NK127 was established from seed that spring they got a more rapid cover from it than they did from Coastal and other Bermudas that were sprigged on 12-inch centers. Also, they found that it remained green a little longer in the fall than the other Bermudas. Then on the other side of the ledger, they found that the grass did not recover well from clipping and that it was severely infected with a leaf spot that did not affect Coastal.

"There is one other big factor in this picture that the folks selling NK-27 do not recognize. That is the fact that more than 90 per cent of our attempts to establish Common Bermudagrass from seed in Texas in field plantings have been failures. In order to establish Bermudagrass from seed, it is necessary for the soil surface to stay moist for about 3 weeks, allowing the young Bermuda plants to get roots down and keep them down in moist soil. As you well know, we rarely have this kind of condition in Texas during the growing season. We may get a lot of rain, but the top 1/2 inch to 1 1/2 of the soil usually dries out for a few days between rains. For this

The turkey industry in Texas contributes about \$35,000,000 annually to the agricultural income of the state, says George Draper of the Poultry Science Department of Texas A&M College. But, he adds, Texas, in the past decade, has dropped from first to fifth in the nation in turkey production and failure to increase consumption of a food high in protein and low in fat was cited as a cause for the drop. Plans are underway to remedy the situation.

reason, I do not think we can afford to recommend establishing this grass from seed anymore than we can recommend establishment of common bermuda from seed. Of course, you will find people who have successfully established field plantings of Common Bermuda from seed. But they are the exception rather than the rule."

# Robert M. Williamson

### Guardian of the People's Rights

Robert M. Williamson, wise and witty editor, lawyer and statesman of San Felipe, Stephen F. Austin's colony, was respected and loved by his neighbors of early-day Texas. They called him "Three Legged Willie" because of a stiff knee he always used a very fancy cane. One of the many salty stories told of Three-Legged Willie is dated 1834, when, as the colonists' troubles with Mexico grew to fighting pitch, he and other patriots of San Felipe marched to join the loyal Texans at the Guadalupe River. There his assignment was to protect a precious 4-pounder cannon. A Mexican force under Captain Castenado arrived to demand the cannon. Williamson hand-lettered a large sign which he placed on the cannon, in full view of the Mexicans. The message on the sign was brief and to the point: "Come and take it!" Captain Castenado forthwith took his command out of there, pronto.

## Hillsboro, Tex., Men Report—

# Ammonia carryover increased corn and maize yields

Laverne (left) and Loyd Williams, who farm 800 acres in Hill County, say: "Under county agent-conducted tests we proved to ourselves that Phillips 66 Ammonia gives profitable nitrogen carryover. Phillips 66 Ammonia was applied to certain plots, left off of others. Then under identical growing conditions, the nitrogen carryover, following a dry year, gave us a 25-bushel increase in corn, and 1000 to 1500-pound increase in maize grain."

"This was vital information for us, because we only get about 28 inches of rainfall here per year. We consider ammonia one of the best ways to reduce the risk of farming."

Other successful Texas farmers have discovered that they make more profit per acre, using Phillips 66 Ammonia. They get more cotton that classes higher at the gin... more profits on wheat and small grains are boosted through higher grain yields and improved forage... more marketable vegetables are harvested.

Phillips 66 Ammonia can be easily applied by you or your distributor. See us today about your supply of profitable Phillips 66 Agricultural Ammonia... it gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.

## Delphians To Stage Flower Show Tuesday

The Cameron Delphian Club will stage its final flower show at the Methodist Recreation Hall Tuesday with entries from throughout the County.

A club project for a number of years, the Delphian Club flower show is open to the public with classes including arrangements, place settings and specimens. Titled "A Revelation In Flowers", the show is being planned by Miss Mildred Thornton, Mrs. Alvin Roberts and Mrs. Carroll Green, general chairmen.

Entries for the show will be accepted from 7:30 until 11:30 Tuesday morning. Miss Thornton announced that the hall would be cleared at 12:30 for the judging. The show will be open to the public again from 3 until 6 p.m. to display the winning entries.

The two divisions listed by Miss Thornton for the show are Arrangement and Horticultural. Judges will be Mrs. Frank Schiller, Mrs. Leo Fuchs, and Mrs. R. G. Grabein. All are nationally accredited flower show judges.

In announcing that this would be the last flower show staged by the Delphian Club, Miss Thornton said that the project had originated to create a stronger interest in local gardens. "Since that time" she added, "the Civic Garden Club as formed indicating that the project has been a success."

The new club project will be announced at a later date according to Mrs. W. C. Freeman, club president.

MRS. LEON ROBERT BEACH

## Saturday Ceremony Unites Trdy, Beach

Miss Anita Louise Trdy and Mr. Leon Robert Beach were united in holy matrimony Saturday morning at 9 a.m. in St. Monica's Catholic Church, Cameron.

Parents of the bride are Mr. and Mrs. Louis Trdy of Cameron and the groom is the son of Mr. C. C. Beach, Westphalia.

The Rev. Alfred Kallus performed the double-ring ceremony and Mrs. Frank Hanel, organist furnished nuptial music.

The bride, given in marriage by her father, wore a formal length wedding gown with a chapel length train, trimmed with white hand clipped lace over tulle and taffeta. The bodice featured a sabrina neckline accented with seed pearls and sequins with short sleeves and mitts. The bodice came to scallops at the waist and the gored skirt fell into a fan over-skirt of the tulle.

Her fingertip veil of French illusion was attached to a pearl crown. She carried a bouquet of a white orchid centered in white roses.

Miss Doris Trdy was maid of honor for her sister. Misses Lydia Krenek, Temple and Bernadette Beach, Westphalia, were bridesmaids.

The bride's attendants were dressed identically in full circular skirts of blue crystalene over taffeta. They wore ballerina length featuring bodices of round necklines and short sleeves and white hats with veils. They carried colonial bouquets of carnations.

Flower girl was Miss Denise

Beach of Temple and ring bearer was Master Michael Trdy, brother of the bride.

Terrance Beach of Temple served as best man. Groomsmen were Louis Tepera Jr., Rogers and Steve Dohnalik of Marak. Ushers were James Barta and Marvin Roesler.

A reception was held immediately following the ceremony at Simon-George Hall. Mrs. Melvin Voight of Temple served the wedding cake while Miss Barbara Katrola of Austin served coffee and Mrs. Gerald Beach of Temple poured.

Misses Delores Wadlie and Yvonne Krenek registered the guests.

Others in the house party were Miss Viola Medack, Frances Hubnik, and Lillie Hromcik, all of Austin.

For their honeymoon the bride chose a light blue alfalea suit with black patent accessories and a white orchid corsage.

The bride is a graduate of Yoe High School and Durhams Business College and is employed by Texas Highway Department. The groom, a graduate of Rosebud High School is employed by Southwestern Bell Telephone Co.

The couple will make their home at 32 West 43rd, Austin.

### TWU State Alumnae President Is Guest At Cameron Meeting

Mrs. John Woody of Sweetwater, State President of the Alumnae Association of Texas Woman's University, spoke to the Milam County Chapter, TWU Alumnae, at the home of Mrs. Niley Smith in Cameron Monday evening.

Mrs. Woody urged Alumnae to create attitudes that will make college teaching an attractive idea so that wisdom can develop young minds; she urged recruitment of students for TWU and other institutions of higher learning; and she urged those present to help create and develop the interest of both boys and girls in higher, Christian education. "There is nothing more precious than human wisdom," Mrs. Woody concluded.

Mrs. Sara Wilkinson, local chapter president, directed a short business session during which it was decided to present a \$100 scholarship Foundation at TWU, Denton.

A committee to be appointed by Mrs. Wilkinson will select the student on the basis of need and ability. The awardee will be announced in May.

Following the business session, guests were invited into the dining room by the hostess where the serving table was laid with a pink satin cloth, overlaid with pink net and gathered with pink satin bows at the corners. It was centered with an arrangement of pink roses and miniature dolls depicting a graduation scene. Pink candelabra decorated the side table.

Lime punch, ice finger sandwiches, assorted cookies and coffee were served.

Other guests honored at the meeting were Misses Vera Ann Perrin and Helen Reid, Yoe High School students and Miss Frances Hoffman of Milano High School.

## Jo Ellen Moore, B. W. Marek Wed

Miss Jo Ellen Moore of Foreman, Arkansas, and Mr. Billie Wayne Marek of Dallas were married Saturday at the United Church of Christ, Ben Arnold.

The groom is the son of Mr. and Mrs. W. W. Marek of Burlington. Rev. Gerald Cobb, pastor, performed the double ring ceremony before an altar banked with white caladiums and white gladioli entwined with blue ribbons.

Mrs. Robert Kalkbrenner, organist, furnished traditional wedding music.

The bride wore a blue party length formal with a blue taffeta jacket. Her accessories were a blue net headpiece and white gloves.

Miss Gerald Ann Foshee, bridesmaid, wore a blue party length taffeta dress with blue headpiece and white gloves.

## Introducing . . . "Dear Herald"

(A column of misadventure and misadvice from the readers and writers of The Herald. —Ed.)

Dear Herald:

My name is Katrinka Ybrnisk-chnki. I am lonely. My main trouble is I'm having a hard time finding a husband, and my feet get cold on long winter nights. Can you help me find one husband, very loyal and understanding?

—Katrinka

Dear Kat,

Welcome! You are among a majority of Americans, 49 million women. They too are seeking a husband. You can do well in husband seeking if you:

1. Buy a foot warmer.
2. Change your name so you can change your name. The minister would never pronounce it correctly.

—Herald

Dear Herald:

I am lonely. Things are kind of quiet around town. Things would liven up, I think, if I was married. I've never married anybody because, I think, everybody knows me pretty well. Do you know anybody that doesn't know me pretty well? I think I would like to meet somebody, particularly a girl, who is interested in matrimony. Really!

—Ernest Sincere

Dear Ernest,

I'm glad that you think. Come by and we will introduce you to your solution, Katrinka.

—Herald

Dear Herald:

A day doesn't go by that I don't watch Dick Clark on TV. He's real cute. But my little brother keeps changing the channel to Walt Disney cartoons. We are constantly changing stations back and forth—Dick Clark, Donald Duck, Dick Clark, Micky Mouse, Dick Clark, Pluto. . . . What can I do to keep my little brat brother from interrupting Dick Clark's program?

—Demented

## In Quest Of Change...

A restless world heard again the report of revolt in Lapaz, Bolivia, capital city of that South American neighbor. The government of President Hernan Zuazo put down an attack of the socialist falange party as 22 people died in the fighting.

Like a sputtering fuse of dynamite, the Bolivian coup stirred anew the relentless purge of peace, again in the Western Hemisphere.

The skirmish follows the Castro overthrow of Cuba's Batista and Argentina's ejection of Peron, among other signs of American change.

Today's Bolivia may be tomorrow's Russia. Bloody Budapest may forever be a bloodier Moscow.

Two movements steadily develop in man's quest for political change: nationalism and freedom from dictatorship.

African peoples—North, South, East and West—are decrying colonial exploitation, asking for self government whether or not they are ready.

Communism, Khrushchev communism, draws zealous revolt in satellites Poland and Hungary while European peoples vote more to the center of political thinking.

Western authority draws bounds to the ambitions of communist growth at Beirut, Lebanon, and in the Quemoy and Matsu Islands off Red China.

Mountainous Tibet, isolated from her neighbors by the towering Himalayas, resounds with the ring of anti-communist battle, shortlived, futile, but gallant. Her spiritual leader leaves his native land for asylum in India. And even neutral Nehru, pacifist and sometime Red sympathizer, admonishes Red China for her sanguinary mastery of tiny Tibet.

Crossing the bounds of these nations, these uprisings, these bloodlettings is the ultimate justification for change: man's hope for something better or further, man's uninhibited right to hope.

In the Middle East, Arabic nations have banded together in a common interest of developing as nations. In the Orient, Asiatic nations have become free, only to fall under the spell of Communist China.

By seeking self government too soon, many nations go under the heel of a neighboring aggressor. But as the aggressor grows, his realm of satellites grows distant from home control. And spark of nationalism tinders the will to be free.

Perhaps the hope for self decision will incite Soviet people to test the strength of Kremlin totalitarianism. Perhaps man's inward hope will burst out next time, as it surely will somewhere... in the midst of dictatorial communism.

Practical politics says this cannot happen. But an ideal puts practical men to work. And man's work is change.

Wonders Why Seven Top Space Men  
In The US All Came From Small Towns

Dear editor:  
When it comes to talking about education, I can speak without any conflict of interest, if you understand what I mean, and I was interested in an article I read some time ago about a famous educator who has surveyed the public education system in this country and announced that it was his opinion a high school to be really first class has to have at least 100 members in the Senior class.  
Since I didn't go to a high school, that big when I was in school, I guess you can say he has a pretty good argument, but something turned up in the newspapers the other day that has got me to thinking.

It's about those seven men the country has picked to be the first men to fly off into space. As I understand it, the armed services searched from top to bottom to find the best equipped men, physically, mentally, etc., to make this attempt, and where did the top seven come from? From small towns most people never heard of before.

Now I know some education is gonna bust out and say the purpose to public schools isn't to train men to conquer space, but you'd think at least one or two of these superbly equipped men would come from a big city with a big school.

I know it's nicer to have well-equipped schools, and the bigger the school the better chance it has of being well equipped, but I have a notion there are some people in this country it wouldn't make any difference what size school you put them in, they'd miss the boat. And on the other hand, there are some young people who make the boat regardless of how small a school they had to put up with.

I ain't saying if you go to school in a big high school you can't come out pretty well equipped to

start getting educated, I'm just saying if you look around among the leaders in all phases of life and assume they all came from big high schools, you'll be a long ways from being accurate.

I've heard that a good school could consist of a good teacher on one end of a log and a good pupil on the other, but there are people who argue the whole thing depends on the size of the log. There are others who say this is true, but there's a shortage of logs.

But don't take my advice on this. As far as I'm concerned, logs are made to fish from.

Yours faithfully,  
J. A.

## Capital Report

Three Weeks Left  
In Regular Session

By Vern Sanford  
Texas Press Association

AUSTIN—With just about three weeks left in the regular session, legislators will be under much pressure—to do many things and do them fast.

Each day that passes without agreement on financial matters heightens the possibility of a special session as soon as this one ends.

Many measures will be trampled under or pushed aside until '61. But as Speaker Waggoner Carr told the House, the problem of raising some new money "won't go away. It has to be faced."

## No Easy Out

Like every other tax proposal made this session, the huge "something for everybody" omnibus tax bill recommended by the House Tax Committee brought howls of protest.

It would raise an estimated \$151,000,000 a year by raising some old taxes and placing new taxes on hundreds of items. Tabbed for increases are natural gas, motor vehicles, cigarettes, liquor, wine, beer licenses.

New targets include hotel rooms, restaurant meals, cigars, chewing tobacco, snuff, aircraft and auto parts, dozens of luxury items jewelry, furs, cameras, watches, silver, etc.) radio and TV parts business machines, commercial rentals, club dues, construction materials, dance studios, reducing salons.

Officially, the bill is known as the Tax Committee substitute for H.B. 727. Unofficially, it's called a lot of other things.

House members showed no more eagerness to rally behind this broad-based approach than they had for Gov. Price Daniel's less "spread out" plan.

## Give Little, Take Little

Two appropriations bills of varying sizes have been passed by the house and Senate. Differences will be adjusted by a conference committee of members from the two houses.

Both bills call for spending nearly \$2,500,000,000 during the next two years. House bill is slightly larger. It calls for approximately \$333,000,000 from general revenue. Senate would spend only \$307,000,000 in general revenue.

To satisfy both houses, the conference committee will try to reach a compromise between these two figures. However it's worked out, it's already clear that spending will considerably exceed the \$281,000,000 spent from general fund for 1958-59.

## Rough Stepping

Governor Daniel's "abandoned property act" barely squeaked by its first test on the House floor by a 71-69 vote.

Measure would allow the state to take over money and property unclaimed for seven years or more. Estimates of how much it would bring in immediately range from \$20,000,000 to \$50,000,000.

Many bankers fear such a law would cause people to be afraid to put their money in banks and decide to stick it in a sock instead. Backers of the measure say the banks and other businesses are holding and getting the benefit of property that does not belong to them, should be used to benefit all the people.

## Co-Op Bill Shunted Aside

A bill to allow rural electric co-ops more "elbow room" has been sent to the Attorney General for an opinion.

Rep. Alonzo Jamison of Denton, sponsor, protested to the House

State Affairs Committee that this would kill the bill. This late in the session, delay is usually fatal.

Highly controversial, the bill would allow co-ops to add new customers after the area of their lines is annexed to a city.

## Advertising Bill Advances

A state-financed advertising program for Texas moved close to final enactment despite heated opposition from an advertising man in the Senate.

Proposed bill would create the Texas Development Board to supervise tourist advertising by the Highway Department and industry advertising by the Texas Industrial Commission.

Senator George Parkhouse, an advertising man from Dallas, objected, not to the state of advertising, but to the way it would be handled. He declared the suggested \$100,000 appropriation would be wasted.

But the bill gained final approval in the Senate and next-to-final passage in the House.

## Fire-Police Bill Gains

A shorter work week for many city firemen and policemen is near the legislative approval.

Senate has passed the bill finally and a House committee has recommended passage.

Bill limits firemen's working hours to 72 in cities of 10,000 to 60,000 population, 63 hours in cities of 60,000 to 125,000 and 60 hours for all larger than 125,000. Policemen would work the same hours as other city employees.

Milam County women secured over \$14,000 worth of bonds in the fourth loan under the leadership of Mrs. T. S. Henderson, chairman of the Woman's Liberty Loan Committee of Milam. She had directed activities in all four drives.

Hon. T. S. Henderson of Cameron was elected chairman of the state committee to conduct the campaign for the proposed amendment authorizing the Texas Legislature to issue \$75,000,000 in bonds for the construction of Texas highways at the National Good Roads meeting at Mineral Wells.

Misses Katy McCall and Irene Cheeves were chosen as representatives of the 1919 Senior Class to go to the May Fete at Southwestern University in Georgetown.

Walter Adams entertained the seniors and members of the baseball teams of Cameron and Taylor at his home.

## 20 Years Ago

The Yoe High Band of 70 pieces left for Abilene for the National Band Contest.

Billy Joe Lamb of Rockdale, was instantly killed when the car in which he was riding with his mother overturned.

Bill Bebee, who escaped from the Milam County jail was arrested in Mexico.

The sounding of a burglary alarm frightened a burglar away from the Tom Hightower store in Silver City.

Mr. and Mrs. H. E. Graham entertained a large group of friends at a delightful lawn dinner for the purpose of announcing the engagement of their youngest daughter, Vida, to Joe Gerick.

## Broilers-Fryers Top USDA's May List Of Plentiful Foods

Broilers and fryers take the No. 1 spot on U. S. Department of Agriculture's list of plentiful foods for May.

Pork and eggs, featured items in April and March, respectively, still belong on the team. Turkeys, especially the smaller sizes, also have stepped into the May list for this area.

Edible fats and oils, milk and dairy products, lard, and potatoes are expected to continue plentiful this month.

And with huge harvest of celery now underway, this item also deserves special attention this month.

The monthly list of foods in heavier-than-normal supply is provided by USDA through the southwest food distribution division of the Agricultural Marketing Service, after national and local supplies are ly will find it to their advantage to serve plentiful foods more often.

# Guard Unit Hosts Rockdale Scouts

Twenty-two Cub Scouts and four Scout leaders from Rockdale received a close-up look at Milam County's National Guard Unit, Company C, 4th Medium Tank Battalion, in a visit to the Armory during its drill period Sunday morning, and from all indications they found it an interesting experience.

The group were members of Cub Scout Pack No. 288, of Rockdale.

The scouts and their leaders spent about three hours in a tour through the Armory, examining the unit's weapons and vehicles, and watching the Guardsmen's training.

They clustered around while Company C members demonstrated the workings of machine-guns, carbines and pistols, or clambered in and out of M-42 tanks, M-16, half-tracks, trucks and jeeps.

They also inspected the new \$110,000 Armory building which is nearing completion. And they were guests of the Guardsmen at noon luncheon.

One of the high-lights of their visit came after lunch when they had their picture taken by Sgt. Edward Brady while atop a M-42 tank.

The four Scout leaders with the group were Mr. H. J. Joseph, Bill Johnson, Bert Fincher and J. L. Lester.

The scouts included: David Hodges, Herschal Joseph, Gary White, Carl Allen, Tommy Perry, Wade Holleman, Brian Hill, Bob Walton, Dwight Lester, Randy Kirchenwitz, Ricky Wenger, Jimmy Speer, Freeman Suttler, Gary Westbrook, Ricky Wells, Jeff Eutermoser, Taylor Burns, Lee Johnson, Bill Fincher, Billy Fair, Tommy Currey and Jim Gobles.

# Modern Station For Mack's Oil

Mack's Oil Company is open for business again at their highway 77 and 36 service station location after completing improvements which included a cement driveway and modernization of retail gasoline pump and service area. In addition to the outside work done, A. W. McCullin, owner, recently remodeled the company offices as part of a continuing effort to keep facilities of Mack's Oil Company up to the latest in motorists requirements in an auto service center.

McCullin, also Phillips petroleum distributor in Milam, Burleson and Lee Counties, knows that top-notch service is what customers want. And that is what they get at his Cameron, Rockdale and Caldwell service stations. The Cameron station features Phillips petroleum products including diesel fuel, motor oils and gasoline. They also sell Lee Tires, the famous Gates belts, Purolator oil filters and Champion spark-plugs, all well known brand items. "You will find the complete service at Mack's 66 in Cameron," McCullin says. "And the same efficient, courteous Phillips 66 service awaits you at the Rockdale and Caldwell stations."

A versatile man in petroleum products and public service, McCullin also buys and sells crude oil in the Minerva field in Milam County. In fact, he point out that the began working in the oil business in Minerva in 1931, moving to Cameron in 1939.

### 3 Arts Club Hears 'Joshua Been' Novel Reviewed At Meet

Miss Mildred Thornton presented a humorous review of the novel Joshua Been for the Cameron Three Arts Club when they met last week at the Episcopal Parrish House. She was introduced by Mrs. Niley Smith.

Mrs. Milton Brown was hostess for the meeting. During the social hour following the program refreshments were served from a round table centered with spring flowers and yellow candles. Mrs. James Kahler and Mrs. Gus Evans Jr. assisted the hostess.

Mrs. G. D. Smith of El Paso, and Mrs. B. A. Buls of Houston are visiting Mrs. Millie Buls, a patient in Newton Memorial Hospital.

Mr. and Mrs. Lon A. Speer were guests in the home of their daughter and family, Mr. and Mrs. James Kahler last week. The Speers and Kahlers also attended the funeral of the late Judge O. C. Speer in Austin April 13.

### SW Conference Sports

## Tom Murray's Column

DID YOU know that Jim Reese, University of Texas miler, was the first man from the Southwest Conference to win an NCAA track championship? The unheralded Reese showed up at the 1925 National Collegiate unannounced and captured the mile run in the then un-

heard of time of 4:18.8. Talk about speed! Baylor's John Bridges will have it in abundance off his frosh group. He has halfbacks with this type mobility: Ronnie Bull, 9.8; Ray Knaub, 9.5 and Tommy Minter, 9.7. Remember Dean Smith, once the University of Texas' fastest human? Stranger things have happened but Stanford University has its fastest sprinter in history and his name? Why Dean Smith, naturally. No relation. The Texas Aggies, now in the midst of switching formations, are expecting their best fullback since Jack Pardee from Oklahoma freshman Jim Murphy. Dallas Long, Southern Cal freshman shot put sensation, almost made a prophet out of his former North Phoenix High School coach, Vernon Wolfe, when he achieved 63-4 to unofficially break the world record in his first meet. He has since broken it officially. Wolfe, before the season opened, lectured at Abilene Christian's track clinic at Abilene and predicted his pupil would likely hit 64 or 65 feet in his first meet. "When Dallas was home recently," he said, "He was putting the shot 60 feet by standing at front of the ring, rearing back and letting it go." This Wolfe is some track teacher. He reveals he has a high school soph who is ahead of Long's pace with a 58 throw and also a senior discus thrower doing 188 feet. Willie Walls the original collegiate football coaching rolling stone, now sets up shop at Florida State after having the can tied at Colorado. Picked up a clipping of a Fort Worth Star-Telegram sports story written the day TCU invaded Dallas to meet SMU in the final Southwest Conference basketball game. It is ominous by its appraisal of the great Bobby James, who died in a home fire shortly after: "FT. Worth-Bobby James is the Mustang cager the Frogs fear. The smooth-shooting junior hit 21 points the last time he faced TCU with the gifted Ronny Stevenson guarding him." Stevenson was probably the best defensive man in the conference.

sub-junior spelling.

First place winners will participate in state competition at Prairie View Saturday.

Schools competing in District 10-A were: Taylor, Rockdale, Rosebud, College Station, Snooks, Gause and Caldwell.

Coaches and assistants for the O. J. Thomas contestants were: Miss Juanita Burton, one act play; Joseph Waring and T. G. Burns, number sense; Claudell Madison and Mrs. Julia Hodge, music; Mrs. F. S. Sharp, debate; Mrs. Cecil Anderson and Mrs. A. L. Lankford Jr., declaiming; Donald Hunter Sr., declaiming; Mrs. Ozella Morton and Donald Hunter Jr., spelling; Mrs. Lula B. Montgomery and Mrs. Courtney Nelson, sub-junior spelling; Miss T. C. Edmond Sr., spelling and essay.

### Rockdale Group Presents Comedy

Rockdale's Little Theatre will present "Blith Spirit" at the Rockdale High School auditorium Saturday and Monday nights at 8:15. This will be the second production for the theatre group.

The play, written by Noel Coward, is an improbable farce in three acts featuring the antics of a slightly eccentric medium and a highly perplexed husband.

Robert Wolf, production manager, said that rehearsals promised an enjoyable theatre evening.

GEORGE MYERS, converted Texas Longhorn pitcher, has major league scouts drooling over his consistent power. Two big league hunters were talking in Clark Field, on the campus of UT, when Myers, now an outfielder, strode to the plate against Baylor and socked a two-run double off

the cliff in centerfield. "That kid can hang that thing out there, can't he?" offered the first scout. "That's nothing!" retorted the other. "You should have been here last week. He hit the longest home-run I have ever seen a college boy unload. See that cliff. It is at least 15 or 20 feet high. The score-

board is 10 more feet and that fence above that another 10. Yet he cleared the whole works and lost the ball out there in Red River street." Abner Wimberly, LSU end coach who resigned at end of the football season, is a living testimony that publicized athletes are not always the ones

who succeed. He came to LSU on a basketball scholarship never having played high school football. He hung around to make All-Southwestern Conference end and was named to the LSU Hall of Fame. Paul Dietzel, head man for LSU's

national championship football machine, says "Abner was certainly instrumental in the success that we have enjoyed. He was an excellent coach and a fine person. We certainly wish him every success in his new endeavor."

### O. J. Thomas Places First In District 10-A Literary Events

O. J. Thomas school took 3 first and 7 second places scoring 103 points to win the literary honors in District 10-A competition held in Rockdale.

Winning first place honors were Rose M. Wright, number sense; Dannye R. Kelley, piano solo; and the cast of the one act play, Donnie Slate, Earnest Lloyd, Wilma Williams, Irellia Cammon and Harvard Aycox.

Placing second were Bobby Turner, number sense; Letricia P. Griffin, senior declamation; Doro, thyrene Williams and Delridge L. Hunter, debate; Gladys Petty and Rose M. Wright, essay; Georgia and Gladys Petty, high school spelling; Barbara Porter and Janice Floyd, junior spelling and Francis Lewis and Deloris Wiggins,

# Sensibly Sensational!

Every line says good taste . . .  
every price tag says it's America's Best Buy

Just look at those elegant lines! Every one suggests kinship with the Thunderbird. Ford's wider-opening doors are easier to enter. Ford offers hat room, knee room, hip room and full comfort for six big 6-footers. Ford's headlights are high, more out of harm's way. You don't have to lift luggage way up as in other big sellers. Yet, with all of Ford's advantages . . . in comparable models right down the line Ford's prices are lowest for '59.

Every mile says it's the King-of-Thrift

Imagine saving \$1.00 on each tankful of gas. Well you do, because Ford thrives on regular gas. And 20 miles per gallon was not uncommon in tests Ford has run with average drivers in Ford Sixes. Ford needs less oil, too! It requires oil changes every 4000 miles, only! Ford mufflers normally last twice as long because they're aluminized. Ford's Diamond Lustre Finishes never need waxing. Yes sir! You just start saving when you buy a Ford!

**TYING-IN** — natural gas from the fields to the transmission line. The natural gas has begun its long journey to you.

**PIPELINES** — a network of long distance pipelines is necessary to bring the natural gas from its origination point to the city where it will serve uninterrupted, day and night.

**COMPRESSOR STATIONS** — natural gas receives a boost. Pushed on by large compressors that maintain pressure in the pipelines to assure safety and a dependable, sufficient flow.

**PROCESSING PLANT** — removes the liquid by-products of natural gas (hydrocarbons like butane, propane and isopentane and others); dehydration plants remove water vapor to prevent pipeline stoppages, so that pipelines may operate trouble-free.

## All this adds up to an adequate supply of natural gas...

*but gas must be bought in the gas fields in the face of vigorous competition!*

Everyone knows — there is nothing more important to a natural gas company than supply — gas reserves attached and ready for use.

Lone Star Gas Company has had a 50-year record of dependable, adequate gas supply — except for the few early, trying years when the Company was struggling to get started and remain in business.

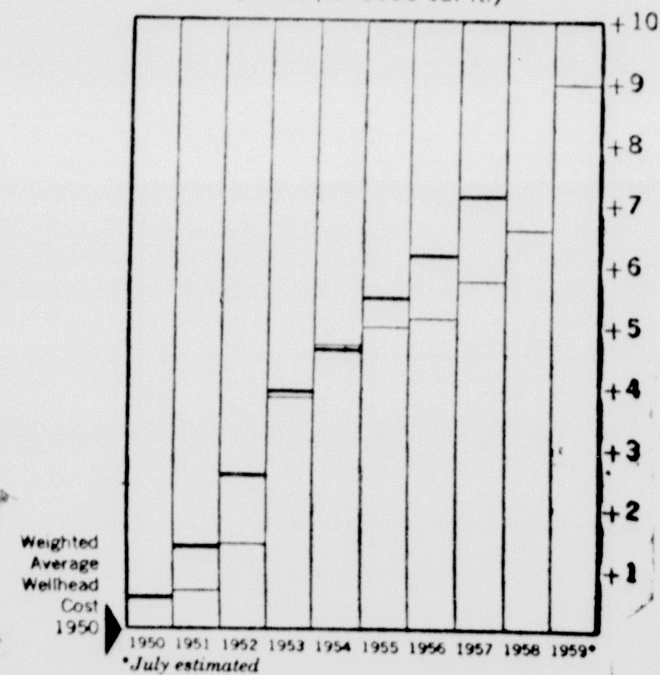

Lone Star's present gas supplies are being used up, and Lone Star must continue, day by day, to add to its supply. These additional supplies are available for purchase only in the face of competition from other pipelines.

Lone Star will protect and maintain your gas supply, but it must pay higher prices, if it is to continue to get the gas you need.

*Satisfying your need for round-the-clock natural gas service is our obligation.*

"A young man to keep your eyes on," that phrase may very well fit Steve Malone, star freshman athlete of Yoe High.

About a month ago, Coach Jim Speer was all smiles when fifteen year old Malone homered with 2 aboard over the centerfield fence in Cameron's first baseball game of the season.

Track Coach Murphy Webster probably had a similar expression of his face last Friday when Malone won the high jump event with a 5 foot, 10 inch leap in the district meet. On top of this he's a number one basketball player, among the fast boys in school and has high gridiron capabilities in his 5-10 150 pound frame.

V O S

When Cameron edged Belton in the district track meet most fans believe that the score is evened between the two rival cities.

Belton pushed Cameron into the Co-Champion slot in football and ran all over us in basketball.

However we still have a good chance of knocking them out again. The way Speer's baseball squad is shaping up there's a high chance at taking them right to along for district champs on the diamond.

V O S

Joseph Michalka was one of nine who received basketball letters at East Texas State College. He was among the starting five.

Michalka is a former Cameron graduate where he was outstanding in all sports.

This was his third year to letter at East Texas.

### CARD OF THANKS

We are humbly grateful and thankful for the services rendered by the Cameron Fire Department and to our neighbors, friends, and relatives and to Dr. Swift and the St. Edward's Hospital Staff for their kindness in gifts, kind words and deeds and offers of help in the fire loss of the home in the Walkers Creek Community May God bless each and everyone of you.
